FED can cut rates as low as they want and toss as much of helicopter money on Wall Street as possible but the meltdown is here.

The Chinese manufacturing supply chain has been severely crippled anon and we haven't even seen the real shit like barebone shelves on a lot of products. It will take a month for resupply if everything goes full hunky dory and the Chinese factories are 100% manned again by tomorrow and the virus cases drop to borderline zero here. Let's be real though that's not happening.

I'm just glad the kikes are losing all their money even with the (((government))) pumping them with welfare.

Doesn't matter how China's doing really.
What matters is what the media is reporting.
All economic damage comes from the media overhyping Coronavirus with the sole purpose of destroying the economy under Trump's presidency so he won't have a guaranteed victory next election.
All the mainstream media outlets are deliberately pushing news articles and TV news items to manipulate the markets which is a federal crime and can be considered an act of terrorism on its own.

The market crashes periodically, so this instability might not portend the immediate start of the NWO, but if a new world dictator rolls out a digital currency and requires everyone to take a biometric access tattoo/implant, DO NOT TAKE IT.

Revelation 13:16-18 "And he causeth all, both small and great, rich and poor, free and bond, to receive a mark in their right hand, or in their foreheads:
And that no man might buy or sell, save he that had the mark, or the name of the beast, or the number of his name.
Here is wisdom. Let him that hath understanding count the number of the beast: for it is the number of a man; and his number is Six hundred threescore and six."

Way to skip the point entirely.
If China gets worse, the media will report China's doing worse.
If China's doing better, they won't report on China and use that broadcast time and webpage space to report that Europe or America are doing worse.
If nobody's doing worse, they won't report a thing about it. They'll report how the vaccine development specific to covid-19 isn't making progress.
If it is, they'll spin it and push against antivaxxers.

The media is under orders to fuck the economy up.
That's what they'll do.

But lay up for yourselves treasures in heaven, where neither moth nor rust doth corrupt, and where thieves do not break through nor steal:
For where your treasure is, there will your heart be also."

The media won't have to fuck up shit. As soon as normies start to notice supply shortages it's over. Current year Americans of any age have never experienced anything but instant gratification of any consumer impulse. Shit is going to be biblical.

supply shortages usually result in...inflation.
Inflation results in reduced purchasing power if wages don't rise.
Pressure on employers to raise wages.
raised wages result in reduced profits.

But, watch those stock prices still go UP, UP, UP.
Thats the rigged market we have today because of central bank pumpers.

essentially, you HAVE to invest your money or it loses value. conceptually that makes sense to boost the economy as a whole or else boomers just sit on wealth. but. surely there is a better way to stimulate gains than devaluing the already devalued fiat even further.

Trump will not sit idly by and watch this happen.
Surely he bullied Powell into the rate cut.
He's probably on the phone with Powell now telling him to cut it again.

When you hear Trump announcing his plan for a huge fiscal spending program, that's when you know he's at the end of his rope.

They don't lose anything in a crash. They just get to buy up cheap assets and more real property. This is what they did in Germany to multiple generations between 1880's-1920's.
Look how that turned out.

Pretty soon, entire warehouses will be sold wholesale for pennies on the dollar. If you need a 1 km x 1 km open space to do whatever the fuck you want to with, you're going to be able to get it for less than 50K. Apartment prices will plummet. Home prices will plummet as supply will flood the market as boomers die from the disease hiking supply. Chinks holding onto property tonnrent out will be forced to sell for pennies on the dollar. All throughout the world everything is going to become cheap as fuck if you were smart enough to save some money. If not, go out coughing
